Customer savings resulting from Sonoma Clean Power, a Community Choice entity

$62 MILLION

Lancaster Choice Energy has completed a 10 MW local solar project

10 MILLION WATTS

With Community Choice Energy, the community purchases clean electrical power, increasing stability through local control of electric rates, and developing energy projects that create jobs.
Flip the Switch for Clean Air and Local Jobs

With Community Choice Energy, local communities reap the benefits of locally-produced clean electricity with local control for clean air and local jobs.

How can Community Choice Energy benefit the Central Valley?

Air Quality
Community Choice agencies are accelerating renewables and electric vehicle adoption, helping to clean up local air quality.

Agriculture
Farms can benefit from collaborating on innovative programs with Community Choice agencies for energy and cost savings.

Energy Democracy
Community Choice agencies have been called “Energy Democracy” agencies because everyone in the community gets a voice.

“Through this innovative new program, we have succeeded in not only increasing the renewable energy content consumed by the citizens of Lancaster, but also lowering their energy rates. This places money squarely in the pockets of Lancaster residents and businesses, giving them more purchasing power while also keeping more money right here in our local economy.”
– Rex Parris, Mayor of Lancaster

Community Choice Energy efforts are underway in over half of California’s counties and 300+ cities

Clean Power Exchange is a program of:
