CCAs + IDER
Capturing Community Benefits Of Integrated Distributed Energy Resources
Nov 27, 2018 CPX Webinar

Julie Allingham  Michael Closson

Co-sponsored by Adobe Foundation
Technologies and programs that displace the need to use energy generated from remote or brown sources

- Some DERs generate and store clean energy locally
- Others reduce the demand for energy, or demand peaks
- Others make the energy supply more resilient
The Value of Energy Storage

- Energy Storage: Basics & Benefits
- CCA Opportunities & Approaches
- Project Example – Sonoma Clean Power
- Reference Materials: Case Studies & Partners
- Q&A and Survey

**DER Planning**
- A broad range of localized options can add value
- Strategic planning is important despite modest funds
